1. The district hospital at Drawsko (Dramburg-054/R37) has two buildings, viz: a small building for the fever department, located in the northern part of the town near the Hotel Polonia, and a three-story building in the southern part of the town near the railway station, which houses the rest of the hospital departments.
2. Only two doctors are in charge of the hospital: a surgeon who is also the director of the hospital, and a pediatricist. Two medical students, one a fourth year, the other a third year student from Gdansk Medical College, are undergoing practical training at the hospital for the summer months.
3. Due to the shortage of doctors and nurses, many beds are vacant and patients are sent to other hospitals.
